

EPI Tutor List

All of the following are approved tutors of English. It is our aim that people requesting tutors receive good service. If at any time you feel that you are not being properly served by your tutor, please contact Patti Watts, Coordinator of the ITA program in the Department of Linguistics: pawatts1@illinois.edu

Please keep in mind that improving your oral English ability is a process that happens over time. While ten hours is specified as the minimum number of tutoring hours required to retake the EPI, this number is just that: the MINIMUM. You most likely will need more hours of individual instruction to make significant improvement. In addition to this, you must be prepared to invest additional time practicing between tutoring sessions. For these reasons, please seek out a tutor well in advance of the date you will (re)take the exam. In terms of improvement, you will get the best result if you try to improve over a couple of months rather than over a few weeks.
