

The Arthur Newell Talbot Distinguished Lecture

Stephen Davis

Northwestern University

Dynamics of Metallic Foams

Thursday, March 1, 2012

4:00pm

1122 National Center for Supercomputing
Applications (NCSA)

1205 West Clark Street, Urbana, Illinois

Reception to meet Professor Davis will follow the lecture.

Arthur Newell Talbot was named Professor of Municipal and Sanitary Engineering in charge of Theoretical and Applied Mechanics until 1926, and regarded teaching as the most important aspect of his work at the University. The Arthur Newell Talbot Distinguished Lecture is made possible through the support of the Talbot family, in honor of their ancestor's commitment to learning and teaching.

A. N. Talbot
